

The problem

It is often very difficult to extract the last drop. Some **drugs** are **very expensive**, therefore it is important to withdraw all of the drug. A **needle** is often used with all the **risks** that this entails.

The solution: qimocap

Use qimocap and eliminate the use of needles. Due to the unique design of qimocap you can extract the last drop.

Expensive drugs ?

Extract the last drop with a syringe and qimocap.

- No needlestick injury
- Withdraw up to the last drop
- No waste

Toxic drugs ?

Use qimocap on the syringe for a closed system.

- No needlestick injury
- Withdraw up to the last drop
- No waste
- No contact with toxic drugs

INTRAVASCULAR THERAPIES
